

Updated January 11, 2020

## **COVID 19 Guidelines for Kentucky Extension Homemakers Association Meetings & Activities**

The guidance detailed below reflects updates to emergency regulations and executive orders as issued December 11, 2020. KEHA clubs and organizations should follow the updated orders and guidance.

**For KEHA clubs and organizations meeting in private homes or properties**, an [Executive Order](#) was issued December 11, 2020 limiting indoor social gatherings in Kentucky to a maximum of two (2) households and a maximum of eight (8) people. A household is defined as individuals living together in the same house.

**For KEHA groups meeting in Extension facilities**, opportunity for face-to-face meetings may be limited at this time. Be sure to talk with your Family and Consumer Sciences Extension Agent or local Extension contact to find out options for meetings and events in Extension facilities.

**For KEHA groups meeting in venues and event spaces**, requirements limiting the number of participants are in effect. Please check with the venue or event space to inquire about options and requirements.

**If any face-to-face meetings are held at this time**, it is extremely important to complete an accurate participant list with contact information. Your local Extension office can provide you with a copy of an attendance roster or visitor sign-in sheet to use for this purpose.

**If you are considering any types of events or activities beyond traditional meetings**, the [December 11, 2020 Executive Order](#) may impact those plans. It will be important to ensure those events and activities follow any related guidelines. All activities within Extension facilities or involving Extension personnel will be required to follow the current Extension requirements. Please also refer to the Kentucky guidance available on the Kentucky Healthy at Work website (<https://govstatus.egov.com/ky-healthy-at-work>). If you are considering fundraisers or any other special activities not specifically addressed on this website, please reach out to your local health department to determine if any specific protocols must be followed.

The health and safety of our membership is our priority. Please stay up to date with the guidance issued by public health officials and take action to limit the spread of the coronavirus.
