

MAMMOTH CAVE AREA HOMEMAKERS

On October 18, the Mammoth Cave Area Homemakers had their Annual Meeting in Bowling Green at Highland Stables. The meeting was hosted by Warren County with the theme "Horsin' Around with the Homemakers". Each County was invited to have a vendor "Stall" to sell anything they chose from their county. The proceeds from these sales were used by each county for the cause they supported. EX: Logan County gave their monies earned to Ovarian Cancer Research.

On November 5, the Mammoth Cave Area Homemakers held their annual Leadership Training at the Warren County Extension Office. Along with the Officers and Chairmen for the Mammoth Cave Area, all 10 county officers and chairmen were invited to attend. This was an educational training time to bond the Area Officers and Chairmen with the County Officers and Chairmen, to insure all knew their duties and responsibilities, and to facilitate working together. Emphasis was given to reports and deadlines along with Plan of Work for MCA and how the counties could incorporate this plan of work into their county activities. All attending were encouraged to get involved on the Area Level with making the Homemaker Organizations vital to their communities.
