

## Nature's Gifts

By : Ann Adams -- Simpson County

Shimmering heat across the desert sand  
Splashing its colors across the land  
Snow capped mountains, way up high  
With silvery mist rising into the sky  
A gently rolling creek ambling along  
Giving us peace with its lulling song  
Ocean waves rolling in from far away  
Bringing us joy, then they quietly slip away  
A grassy meadow just around the bend  
With its wild flowers dancing gracefully in the wind  
The powerful river that runs dark and deep  
In a canyon with walls rugged and steep  
A waterfall crashing into the river below  
Becoming one with the rivers natural flow  
Looking up into a clear blue sky  
Watching the clouds just drifting by  
Amazing sights wherever you live  
Are the gifts that nature has to give
